This term has been a busy term in Year 1 / 2. We have been busy doing a lot of work and trying our best in everything we do. The year ones and twos have been improving their writing every day, they have been writing about many things, such as their weekend and stories about crocodiles, dragons and fairies. In Mathematics we have been looking at counting and measuring. All students where given the task to find out how tall they all where. They found out that Benjamin was the tallest at 11 pop sticks tall, and that Sofie and Lachlan are the smallest in the class at 9.5 pop sticks tall. Over all it has been a busy term learning about many things. Miss Nic.
