We are almost at the half-waypoint of Term Three and can’t believe how much learning has been happening in our room.

We have been learning about money and its value, types of patterns, the mass of objects as well as different types of reading and writing strategies.

The students have been focused on working hard to complete their work well, so that they can earn token money, which can be spent in the class shop each Friday. We have to count the money in our wallets and work out if we are able to buy something in the shop or wait and keep saving for something bigger to be bought in the future.

Food Sensations – In week 3 the school was lucky enough to have an incursion about healthy eating. In our class we were lucky enough to make Crunchy Crumble Cups and Fruity French Toast. We enjoyed having a go at cooking and it was even better to eat the final product.

Rags to Riches – On Tuesday the whole school travelled by busses and cars to Geraldton to watch Nagle Catholic College performance of ‘Rags to Riches’. It was a wonderful display of the talented students from Nagle CC.
