

In Term One the Pre-Primary class focused on blending colours and identifying Prime and Secondary Colors. Their favourite activity was mixing shaving cream and Edicol dye.

The Year One and Two class also looked at Primary and Secondary colours throughout Term One. They made colour wheels, blended colours to create primary and secondary colours and also used their hands to create optical illusions.

The Year Five and Six class worked on using different techniques with lines and patterns to create optical illusions. They also used a variety of materials to create their Harry Potter broom stick.

The Year Three and Four class used various techniques with lines to create optical illusions and scattered pictures to create a variety of artworks.
