

Year 1/2 News

So far this year we have been learning about recounts, family history and lots of maths strategies that will help the students with problem solving and mental maths.

Here is a picture of the year one, two class-learning skip counting by playing hopscotch. It was a lot of fun and helped them count in two's, five's and ten's.

We have also talked about feelings, how they make our bodies feel and how to cope with them.

Each child was given an emotion, they had to draw what it looked like and write a sentence about how it makes them feel. Our artwork was made into a book for the children to read and refer to for enjoyment or when they are confused about their feelings.

Come in to class to have a look at our amazing book and enjoy our hard work.
