

Sustainability

In year 1/2 we have been learning about the environment and how to look after it. We listened to the Dr. Seuss story, 'The Lorax' to learn important lessons about the responsibilities we have in our world.

We have lots of ideas about how to look after our environment to continue living the lucky life we live.

Unless someone like
you cares a whole
awful lot,
nothing is
going to get
better.
It's not.

It is important to look after our environment because...

- ... We need fresh water to drink – Lucas
- ... Scientists will be able to find out stuff – Hunter
- ... If we cut down trees there would be no oxygen – Aidan

We created artwork to represent the 'truffula' tree from the story. We used bubble wrap for the sky and forks to create the fluffy look of the trees and grass. Here are some examples of our excellent work.
