

The Year 3/4 Vegetable Garden

On the 2nd of November the Year 3/4 students completed their gardening project for 2017. With help from Miss Jill, Miss Cream and Mrs Steele the students enjoyed digging up the dirt to discover their final abundance of vegetables grown. We were all amazed to see the size and quality of our produce.

Once the vegetables were collected the leaves were stripped and the vegetables were given a good wash. Then the fun begun as all the students became busy cutting (with teacher guidance) and plating our labours of loves into delicious treats to be enjoyed by all.

Sofie and Isabella made a lovely bocconcini, tomato and basil salad with a standard of presentation seen on My Kitchen Rules. Whilst Cooper, Thomas and Charli created a healthy fruit salad. Mrs Steele made a scrumptious Italian style dip with fresh lemons, olive oil and salt that Laney happily taste tested and instructed that 'a squeeze of lemon' was required! Miss Jill guided the selection of different lettuce types and helped the girls. to plate in a bowl ready to be paired with Mrs Steele's dip. To add to our treats curried egg was combined with fresh celery and crunchy carrot sticks. All the platters were placed ready for the Year 3/4 feast and Riley added the final touch with a beautiful purple flower from the garden.

The overall garden project has been a great success. The celebration feast with fresh home-grown vegetables, made for the perfect farewell to Miss Jill as the Year 3/4 teacher. We wish her all the best in her new role as our school Principal.
