

# SUSTAINABILITY IN ACTION

1.

FIRST WE SOAKED THE PAPER FOR A WEEK

As part of the National Quality Standards, the K-PP room have been focusing efforts to be better global citizens. We have been focusing on recycling, reusing and being mindful of the waste our classroom produces.

Some of the ways we try to minimise waste are:

- \*composting our food waste via a worm farm
- \*reusing paper in our learning centres
- \*using household recyclables in our art projects
- \*collecting plastic waste for reuse or recycling
- \*using paper waste to make bricks for replacement fire wood.

SECONDLY, WE FILLED THE BRICK MAKER WITH THE WET PAPER AND PRESSED THE WATER OUT

2.

3.

THE BRICKS ARE LEFT TO DRY FOR A WEEK. THEY WILL BURN FOR TWO HOURS WHEN USED AS FIRE WOOD.

NAME: K-PP  
2017

Please continue to support our effort to be sustainable by:

- \*supporting waste-free Wednesday by packing lunches that do not have wrappers.
- \*Send in plastic bottle tops and other pantry packaging for our 'junk art' area.
